

1. DENKENSHA CO., LTD.

looking for
BUYER

1. Line of Business / Production Items

CFRP products

CFRP products

Cable hangers
(cable-suspension equipment)

Spiral sleeves
(Material for protecting and distinguishing cables)

- Main Products:** (1) Extrusion-molded plastic products and machined steel wire products
(2) Molded CFRP (carbon fiber-reinforced plastic) products
(3) Installation equipment for power transmission and telecommunications (suspension equipment and protective equipment)

Main Tehcnology: We offer services from design to casting, machining, and inspection through our integrated production system.

- Main Customer (industry):** (1) Industrial machinery, automobile (motorcycle), aerospace, medical devices
(2) Power transmission and telecommunications companies; companies that do design and construction, and deal in equipment for power transmission and telecommunications installation, etc.

2. We are looking for...

BUYER

1. Companies that use our products ((1) plastics and steel wires, (2) CFRP) as products and components or are considering doing so
 2. Power transmission and telecommunications companies that use our products ((3)Installation equipment for power transmission and telecommunications (suspension equipment and protective equipment)), or companies that do design and construction, or deal in equipment for power transmission and telecommunications installation, etc.
- 【Target】 Japanese or local companies

3. Company Profile & Contact Information

looking for
BUYER/PARTNERSHIP

1. Line of Business / Production Items

Video Enhancement
Red Super Eye G2

Remote Controller for RSE-G2

Enhancement Software

Enhancement Cloud Service (Coming soon)

Main Products:

Video Enhancement equipment, software and cloud service.

Main Tehcnology:

The technology will enhance the detail of subjects in any given image captured under unfavorable climatic and lighting conditions.

Main Customer (industry):

Military, Law Enforcement, Power Plant, Traffic Control/Aviation, Government, Reserch Institute (Surveillance), Video Communication, Investigation, Information Service/Medical Support (X-ray Inspection)/Car-viewer, Car-sensor, Inspection for manufacturing and etc.

2. We are looking for...

BUYER

We are looking for potential buyer and reseller for our products.

1. [Surveillance camera] Military, Law Enforcement, Power Plant, Government facilities / Security Company (Civil)
2. [Medical] Endoscope, X-ray, and etc.
3. [Car Industry] Color coating inspection for car at manufacturer and Integrated car-mounted camera system.

PARTNERSHIP

Our product is a unique digital image improvement filter with a broad range of applications, so we would like to cooperate with the potential integrator company which can integrate our technology into their system and service.

1. Military, Police department, Fire department, Government contractors
2. Car industry, Medical company, Surveillance Security Company, Inspection Company
3. System Integrator for monitoring of marine traffc, river, highway, railroad, power plant and etc.

3. MAKISHINKO CO., LTD.

looking for
BUYER

1. Line of Business / Production Items

Worm Speed Reducer

Planetary Reduction Gearbox

Screw Jack

Bevel Gearbox

We are a top and leading manufacturer of Worm Reduction Gears in Japan.

Main Products: 1. Worm Reduction Gears, Precision Planetary Reduction Gears, and other Reduction Gears
2. Screw Jacks, Actuators such as Electric Cylinders 3. Bevel Gearbox

Main Tehcnology: 1. Worm Reduction Gears, Precision Planetary Reduction Gears, and other Reduction Gears

Our Reduction Gears, which have bigger area on each tooth and have high grade gear oil, are 10% more efficient compared to conventional worm reduction gears. The products can be operated with input speed of 3,000 rpm (except small type products), and can be used with various servo motors.

2. Screw Jacks, Actuators such as Electric Cylinders

With various combinations, the products can be used in wide application such as in theaters, medical and IT industries.

Our standard product line-up ranges from 2kN to 1250kN. We have 75kN and 250kN that other companies most likely don't have. Select from trapezoidal screws and ball screws according to the price, holding force, speed, efficiency.

Ball screws can be selected for environmental and energy saving reasons.

3. Bevel Gearboxes

Our products with various shaft layouts can meet any demands.

Main Customer (industry): Consumer goods companies such as of Automotive and Food, Device manufacturers, Medical, IT, and Semi-conductor-related

2. We are looking for...

BUYER

1. Worm Reduction Gears, Precision Planetary Reduction Gears, and other Reduction Gears
2. Screw Jacks, Actuators such as Electric Cylinders 3. Bevel Gearboxes

【Industry】

1. Consumer goods companies such as of automotive and food, and/or device manufacturers that supply their products to such consumer goods companies

*Our products are used in various equipment such as stage sets, conveyer belts in revolving sushi bars, and home elevators.

2. Potential purchasers in the medical, IT and semiconductor industries.

We have delivery record in China, Korea and Taiwan.

4. MISHIMA CRAFT, INC.

looking for
BUYER/PARTNERSHIP

1. Line of Business / Production Items

We solve difficult problems related to wire machining using proprietary technology.

Main Products: Butt resistance welding electrodes (product name: X Attachment), wire bending machines, wiremesh welding machine, wire end chamfering machine, wire machining composite automated equipment

Main Tehcnology: Exhibition Product: Butt resistance welding electrodes (product name: X Attachment)

Attaching this product to normal spot welding equipment allows to use it as butt resistance welding equipment. By cutting grooves on the tip, a variety of butt resistance welds are possible, including I-joints, T-joints (T-shaped), and ball joints.

Main Customer (industry): (1) Welding equipment makers and retailers
(2) Machining companies that bend or weld iron and stainless steel wire, as well as companies that sell welding equipment to such companies (welding supply companies)

2. We are looking for...

BUYER

Machining companies that bend or weld iron and stainless steel wire, as well as companies that sell welding equipment to such companies (welding supply companies)

【Industry】 We do the following types of machining for industries that include automobiles and home appliances.

【Specific machining examples】

Automobiles, household appliance wire and components, air conditioning fan covers, bicycle and motorcycle baskets and luggage racks, gridiron for cooking stoves, kitchen and bathroom storage, safety guards for heating appliances, handles for various storage containers, display panels and equipment for stores, shopping carts, etc.

【Target】 Japanese or local companies

PARTNERSHIP

1. Manufacturing contractors (partial/full) for butt resistance welding electrodes (product name: X Attachment)
2. Welding equipment makers and retailers that will deal in butt resistance welding electrodes (product name: X Attachment) as an add-on product for spot welders

【Target】 Japanese or local companies

looking for
BUYER/SUPPLIER/PARTNERSHIP

1. Line of Business / Production Items

Various types of
Precision rubber products

O-rings and other types of
Precision rubber products

Extremely small rubber products
for portable inspection devices

Products for freeze prevention drain valves
/for firefighting valves

We can propose made-to-order products from prototypes to mass production.

Main Products: Industrial precision rubber packing, O-rings, rubber-metal bonded products

Main Tehcnology: We can propose made-to-order products with shapes, materials, etc. that meet the customer's needs (temperature, pressure, etc.) from prototypes to mass production.

Main Customer (industry): Plumbing (toilets, bathtubs, etc., faucets, bidet toilets, pipe couplings), gas (gas cocks, gas couplings), hydraulics, pneumatics (valves, air pumps), etc.

2. We are looking for...

BUYER

Industrial precision rubber packing, O-rings, rubber-metal bonded products

【Industry】 Plumbing (toilets, bathtubs, etc., faucets, bidet toilets, pipe couplings), gas (gas cocks, gas couplings), hydraulics, pneumatics (valves, air pumps), etc.

【Target】 Japanese or local companies

SUPPLIER

1. Metal parts (for rubber-metal bonded products) 2. Iron punching machining
3. Bronze, brass, and stainless steel cutting machining 4. Metal dies for rubber packing

【Industry】 Metal machining companies

【Target】 Japanese or local companies

PARTNERSHIP

Manufacturers that we can partner with for the manufacture and procurement of metal parts for rubber-metal bonded products, for iron punching, for bronze/brass/stainless steel cutting, and other machining as well as product design and proposals.

【Industry】 Metal machining companies

【Target】 Japanese or local companies

1. Line of Business / Production Items

Bicycle / SUS

**Bicycle/
 Brass, aluminum, SS, SUS**

Laser cutting / SS

Bending / SUS304 (3mm)

Main Products: (1) 2-Dimensional laser machining of iron, stainless steel, aluminum, brass, titanium, etc., (2) Bending (3) Precision sheet metals

Main Tehcnology: (1) **Laser machining -with 2D Laser machining machine;** Output: 6 KW 2D, Processing size: 3 m × 1.5 m (maximum),
 Sheet thickness: can process thicknesses of 25 mm iron and stainless steel, 15 mm aluminum, 10 mm brass to 0.3 mm.
 Fine-detail machining also possible (can make holes of diameters smaller than plate thickness).

(2) **Bending -with Press Brake;** Press pressure: Maximum 250 t, machining size: can press bend to maximum 3m.

Main Customer (industry): All industries that require laser machining and bending, such as architecture, civil engineering, machinery manufacturing, production line manufacturing, installation, design, etc.

2. We are looking for...

BUYER

Laser-processed parts, bending-processed parts, precision sheet metals
【Industry】 All manufacturers that require laser machining and bending.
 Architecture, civil engineering, machinery manufacturing, production line manufacturing, installation, design, etc.
【Target】 Japanese or local companies

SUPPLIER

Steel plating (SS, SUS, aluminum, brass, etc.)
【Industry】 Companies that have delivery records with Japanese companies and trustworthy record,
 and also are clear about delivery times, prices, etc.
【Target】 Japanese or local companies

PARTNERSHIP

Laser machining, bending
【Industry】 Companies looking for a partner for outsourcing laser machining and bending
【Target】 Japanese or local companies
