

4. TOYO STAINLESS STEEL KAKOH CO., LTD.

If you need welding and machining of stainless steel, just leave it to Toyo Stainless Kako!

As a general manufacturer specializing in stainless steel that manufactures, handles, and sells everything from vacuum equipment to small parts, we work to solve customer problems from the planning and design stages.

1. Line of Business / Production Items

flanges, clamp joints, stainless steel products

welding (vacuum chambers/vacuum pipes)

Main Products:

1. Stainless steel flange manufacturing
2. Stainless steel welding in general
(mainly vacuum chambers, vacuum piping, chemical pipe welding processing, tank manufacturing, etc.)

Main Technology:

We manufacture flange and clamp joints based on our understanding of the characteristics of stainless steel that we have acquired through our 50 years of experience. We have a proven track record of prefabricated pipe welding for shipbuilding (LPG, LNG tankers, etc.), and recently vacuum welding for manufacturing vacuum chambers.

Main Customer (industry):

plant engineering industry, vacuum equipment industry

2. We are looking for...

SUPPLIER

1. Manufacturers of stainless steel flanges (forging/machining), especially those that can manufacture large sizes (capable of forging diameters of 175 mm or more)
2. Stainless steel welding in general (mainly vacuum chambers, vacuum piping, chemical pipe welding processing, tank manufacturing, etc.)

(Industries)

- A company with cost competitiveness and quality control capabilities comparable to China (local company)
- A company that cooperates with us to improve Q (quality), C (cost), and D (delivery) to be positioned as our Thai factory rather than our supplier.
If possible, a company that can handle everything from material procurement to export.

3. Company Profile & Contact Information

TOYO STAINLESS STEEL KAKOH CO., LTD (Japan Head Office)

■ Established Year	: 1970
■ Number of Employees	: 35
■ Capital (USD)	: 10,000,000
■ Person in Charge	: Takashi NAKAMURA (Mr.)
■ Title	: President
■ Language	: English, Japanese
■ Address	:
Head Office & factory	: 20-79, Rinkai-cho, Kishiwada-shi, Osaka, 596-0013, JAPAN TEL: +81-72-423-9302
Shonan factory	: 3-17-18, Hatori, Fujisawa, KANAGAWA, 251-0056, JAPAN
Tachikawa Office	: 20-12-201, Sunagawa-cho, Tachikawa, TOKYO 190-0031, JAPAN
■ E-mail	: takashi.nakamura@toyostainless-kako.co.jp
■ Website	: (JP) http://www.toyostainless-kako.co.jp/

1. We have experienced engineers (meisters) in-house who are involved in high-precision stainless steel welding, such as TIG welding and vacuum welding. We are working to improve the efficiency and speed of the QDC of the welding process, aiming to shorten delivery times and improve quality. Under the guidance of the meisters, we are also focusing on human resource development.
2. We manufacture and sell products that comply with JIS standards and European and American international standards using stainless steel materials that meet customer needs. We have cutting machines, such as CNC, MC, etc., and work on improving the efficiency of QDC in the manufacturing process to shorten work times, reduce costs, and enhance quality.
