

Build Strategic Partnerships with
Manufacturing Companies from Osaka, Japan

Meet Us at Booth #D1-8617 at the Manufacturing Indonesia Series

JAC Consulting, in collaboration with Japan Osaka and the Osaka Business Development Agency (O.B.D.A.), brings together seven manufacturers from Osaka. This is your opportunity to connect with trusted industry partners, explore collaboration possibilities, and expand your business presence in the Indonesian market.

Freebear Corporation

Specialised in precision machine tools, liquid crystal displays (LCD), and semiconductor equipment manufacturing.

Tokai Spring Industries, Inc.

Expert in custom-designed metal springs and precision components for diverse industrial applications.

Yashima Denko Co., Ltd

Producer of electrical and metal products for industrial use, ensuring robust and reliable solutions.

Techno Roll Co., Ltd

Manufacturer of high-quality rubber rolls for printing machinery and related components.

Eagle Clamp Co., Ltd

Focused on lifting and clamping equipment, including chain slings, tongs, and clamps for heavy-duty operations.

Q-ho Metal Works Co., Ltd.

Specialist in manufacturing durable metal parts and industrial hardware for various sectors.

Pa-man Corporation

Engaged in planning, development, and production of automotive components and accessories.
